

CD Storage Cabinet With Drawers.

Designed for mass storage of CDs, our high-quality filing cabinets will provide a safe and secure housing for your media.

The CD storage cabinet with drawers is available in a variety of sizes, having three to seven drawers. A top-cabinet can be added to accommodate even more CDs, if required.

Drawers are partitioned into five rows, providing storage for up to 280 standard 9mm jewel cases. Each row will also allow a number of slightly wider cases, such as those with cardboard sleeves that accompany some music CD releases.

The CD storage cabinet with drawers is manufactured from riveted high-quality sheet steel, and the folded edges around the front provide for a solid structure. With a wide range of colours available, our CD storage units can be built to fit any environment.

Key Features

- Media cases sit spine upwards, allowing easy viewing and efficient searching, as shown in figure 2.
- The CD storage cabinet will accept cases that are slightly wider than standard CD jewel cases.
- High-quality Accuride® ball-bearing runners mean the drawers glide effortlessly as shown in figure 3.
- The front, back and side of each drawer is made from double-thickness steel to provide rigidity, and this is complemented with a welded partition half way between the front and the back.
- The anti-tilt mechanism ensures that only one drawer can be out at any one time.
- Plastic-card labels on drawer-fronts allow for identification of contents.
- Handles give the media filing cabinet a sleek modern look.
- The storage cabinet is lockable and is supplied with two keys.
- This media storage cabinet with drawers is ideally suited to a range of corporate and private uses including data discs, CCTV footage, DJs, music fanatics and film buffs.

Drawer partitioning

Each row is split into five rows to provide storage space for up to 280 standard jewel cases. Partitioning is achieved by way of plastic-card 'U-shaped' channels which seat loosely as shown in figure 4.

There are equivalent models for filing of standard DVD and VHS cases. Alternatively, a cabinet with some drawers segregated for CD media and others for DVD and VHS media can be manufactured.

Dimensions

- The width of the CD storage cabinet with drawers is 760mm (30") and the depth is 660mm (26").
- The full depth of the unit (including handle) from back to front when a drawer is fully extended is 50".
- Internal drawer measurements are approximately 165mm (6½") high, 660mm (26") wide and 590mm (23¼") deep.
- Steel folded to 25mm (1") thickness at the front and on the sides
- Steel folded to 32mm (1¼") thickness on the media cabinet top and base.

Specifications

Model	No of drawers	Height (mm)	Height (")	Capacity (cm) †	Capacity (") †	Capacity (9mm jewel cases) ‡	Discounted price (GBP)
335CD	3	560	22	876	345	840	849.00
345CD	4	740	29	1,168	460	1,120	999.00
355CD	5	890	35	1,460	575	1,400	1199.00
365CD	6	1,070	42	1,752	690	1,680	1249.00
375CD	7	1,220	48	2,044	805	1,960	1299.00

† Capacity is non-contiguous.

‡ A "9mm jewel case" has a lip on its corners which means it is actually greater than 10mm thick, and these figures take this into account.

Colours

The main body of the media storage unit with drawers can be powder coated in one colour with the drawer fronts in another. The CD cabinet on page 1 has a Light Grey frame and Sapphire Blue drawers.

Other colours available are Sterling Grey, Cream, Pastel Green, Turquoise, Clover Pink, Burgundy, Brown, Aluminium Silver, Pastel Violet, Lilac, Pastel Blue, Aqua, Capri Blue, Black and White Gloss. Page 3 of this document illustrates the colours available. Sample discs are also available on request.

Delivery and installation charges

Once manufactured the cabinet/s are shipped for next working day delivery via a courier using a door to door service. The cabinet/s arrive on pallets. It is then the responsibility of the customer to remove from the pallet & place where required. Generally there is a flat charge of £55.00 + Vat per cabinet irrespective of the number of drawers, however, there maybe slight variations on this price depending on the delivery area.

Lead times for this service is generally 10-20 working days.

A more personal service is also offered where the cabinet will be installed to a ground floor location & unpacked if required. Additional charges apply to our CD cabinets with 1-6 drawers as detailed below: £55.00 for 1, £90.00 for 2, £135.00 for 3 and £175.00 for 4 delivered to the same address.

A 2-man delivery is required for the 7-drawer models which includes delivery & installation to a 1st floor. Charges are £145.00 for 1 and £180.00 for 2.

N.B If the delivery location has step/s either into the property or delivery/installation is required to a first floor an additional £100.00 is required. Prices of a 6-drawer model for example would be £155.00 + Vat for 1.

Additional delivery charges apply to certain areas of the country. See Page 4 for details.

Lead times for this service vary and are dependent on other delivery and installations within the area. As such no specific timeframe is offered.
